Developed with Xoops technology and prizing the interactivity, the team of bertholdo release a new website for Museu dos Brinquedos, a brazilian museum dedicated for toys. The big news of this website is a game developed by Bertholdo, where the website users interact with a soap bubble machine and they have to burst the maximum of soap bubble to get points and be classified on the website ranking.

Visit the website and give your opinion: www.museudosbrinquedos.org.br
