I just released the new Classifieds Module.

For Xoops versions 2.3.3b and up. Some files may need to be changed, I have supplied them.

Fixed all errors that were reported [here](#).

Now admin can receive an email if a user modifies a listing.

Read the README file

Must use update script if you are upgrading.

Available in the [download section of this site](#).

Report any problems [here](#).

Thanks,

John
