ifeelfree.cn: Free News and Reviews.

This is a new site, runs XOOPS 2.3.3, and uses the modules: [weblinks](#), made a point on the template changes, there are only simplified Chinese language, but I hope this site can make a lot of traffic, then I would consider allowing this website Use multi-language mechanism, so that more friends on the site to find what he needs.

It is still early stages, but still welcome your visit.
