## New free theme: bleekk-x001 - Themes

Posted by: Bleekk

Posted on: : 2010/8/11 20:20:00

I want to show you the new free bleekk-x001 theme.

- clean design
- based on bleekk-fw theme framework
- image slider
- left column blocks shown as tabs
- changed system templates: search, redirect, comments, login

You can show any block as tab. The left column blocks will be displayed as tabs.

The slider images are stored in the folder /themes/bleekk-x001/slider/  
To change the images edit theme.html (line 116)

Screenshot:

The theme is under the GPL licence.
