As of today our website runs on a new domain - the domain name is <http://www.xoops.ir>, and we are happy that we can use this domain again. This is our old domain but we lost it 2 years ago and we had to use another domain (<http://www.irxoops.org>)

Now our domain back again and we've decided to use it again .

Big thanks go to [Nano Pars Co](#) because of free project hosting and getting us back the domain, and big thanks of [irmtfan](#) for hosting Persian XOOPS project for 2 years !

Please visit Persian support site on our new domain: <http://www.xoops.ir>
