

New Free Theme: InsBusie - Themes

NEWS_PDF_AUTHOR: insraq

NEWS_PDF_DATE: 2010/8/26 6:30:00

The design comes from one of my abandoned design concept. **It is not the client that abandoned the design, I did.** I don't like it, but other people might like this style so I spend a few hours making a theme out of the concept.

I integrate Superfish menu and slideshow into the theme, and they can be modified by editing tpl/ *.html.

You can do whatever you want to the theme, including resell and redistribution. It is also OK to use it to a commercial project. I don't really care. All files are licensed under GPL 2.0 **except for the demo photos in slideshow.**

Grab your copy or view the demo on [this page](#).
