[EZOSHosting.com](http://EZOSHosting.com) now supports Xoops.

If you need Xoops pre-installed and ready to go within minutes, please consider hosting with EZOSHosting.

We offer the latest and greatest version of Xoops pre-installed on demand. All accounts are setup instantly and [prices](#) start from \$2.99 per month. There are no setup fees involved.

We have a lot of optional extra features to offer, like unlimited subdomains, spam and virus protection, postgreSQL support, etc.

If there is anything you need that is not listed on the site, [talk to us](#) - we need to know your needs before we can satisfy them. :)

If there is a need for it, we could also offer Xoops modules and layouts to be pre-installed to go. However, for us to determine if you would like such a service, you'll have to do something: Leave a message right here. :)
