

XoopsPoll 1.31 released - Modules

NEWS\_PDF\_AUTHOR: Mazarin

NEWS\_PDF\_DATE: 2010/10/23 0:10:00

After being hidden in the file repository for several months, XoopsPoll 1.31 is now released.

This version is a small update to the 1.3 version released in the beginning of 2010.

Added features (compared to 1.3):

- + Log of votes for each poll available in admin section (thanks to X-Bandit for this feature)
- + No. of comments incl. link to them available in block (if comments enabled)
- + No. of total votes available in block
- + Poll description on the voting and results pages
- + Redirect back to original page after vote if voting from block, otherwise redirect to results page

Changes/bugfixes:

- Removal of links to vote on index and results pages if a user has already voted

Install:

If upgrading from 1.3, just copy over original files and update module.

If upgrading from version 1.2 or earlier, please uninstall original version of XoopsPoll and make a fresh install.
