XOOPS CakePHP module (x-Cake) updated to 1.28 - Modules

NEWS_PDF_AUTHOR: Mamba

NEWS_PDF_DATE: 2010/10/24 7:10:00

x-Cake is a Rapid Development Suite for PHP Applications utilizing XOOPS and CakePHP. It has been recently updated by Yoshi Sakai to version 1.28 of CakePHP.

You can quickly write modules for XOOPS if you know the Cake Method and structure, or import your existing Cake Framework Application into a more dynamic environment like XOOPS. For support and information look on CakePHP website.

Download xCake from **here**
