Dating Profiler

Dates is a dating profiler for xoops, it incorporates watermarking with a unlimited number JQuery Gallery. With basic admin and use of the profile module which is required for this module, this allows your web clients to list themselves for dating.

This is the Dating module for XOOPS 2.4 or later, this module requires to have profile module installed previously as it uses the fields in profile module for sexuality and sex type.

Uses wideimage to watermark the images this means that your clients images are protected as sourced from your website they also use a passkey system to prevent hotlinking to images this uses a blowfish passkey method.
