Theme Configuration module 0.1 alpha. - Modules

NEWS_PDF_AUTHOR: aitor

NEWS_PDF_DATE: 2010/11/17 22:00:00

Theme Configuration Module 0.1 alpha version is available.

Included are 3 themes so you can try to play with it and send suggestions for final version and bug corrections.

Included:

modules\Tcm -> Theme Configuration module.
themes\default-css -> -> thanks to Ianez
themes\maitscocorporate -> created by Maitsco
themes\maitscoportal -> created by Maitsco

Install as any module of xoops, copy the module to the xoops module folder.

Install the themes if you wan't because they are the same as the original autor create.

We are going to need to configure some files and folder.

In the module only is need to set write permision to admin/profiles folder.

In the xoops theme folder theme is going to be need to set css write permision,

xoopsroot/themes/default-css/style.css
xoopsroot/themes/default-css/xoops-style.css
xoopsroot/themes/maitscocorporate/style.css
xoopsroot/themes/maitscoportal/style.css

Good Look and thanks to Maitsco for these nice themes.http://www.maitsco.com/english/

Instalation video available, sound is in spanish.
