Professor Mohamed Al-Turaiki, a Saudi national who professor of disability and orthopaedic bio engineering, launched his personal website in 2 languages by adopting XOOPS 2.4.5 , and by using the following modules:

- Publisher
- Extgallery 1.07
- TDMDownloads 1.5
- Xfguestbook 2.5
- Mydownloads 1.6
- Contact 1.7
- Sitemap
- Our Partners
- Simple Counter
- Mymenus
- Subscriber

The theme is based on default XOOPS theme, with nivo slider, curvy corners, and many others js effects.

A big thanks for: Mowaffak (arabxoops), Kris, and Tatane for their precious helps and remarks, also a big thanks for all developers: Mage, Trabis, Herve…etc because we are always profiting from their creativity.

You can check the website from here,
http://www.en.profalturaiki.com
the Arabic version is http://www.profalturaiki.com

Your advices, comments are most welcome.

XOOPS is proving, as always, that it can be the CMS #1 when you are looking to create a powerful website.
