Handicarauto is a FREE classifieds site entirely dedicated to vehicles for handicap

You can sell all kinds of vehicles:

- * Berline
- * Monospace
- * 4x4

but also any equipment related to automotive equipment for the disabled (swivel seat, accelerator and brake at the wheel, loading ramp, and other equipment)

This site was developed using Xoops 2.5.0

The modules are commercially avail:

- Adslight (changed for me by a developer service)
- Liaise
- Pages
- Mylinks
- Multimenu

Thanks to its GPS system, advertisers can make their ad visible on an interactive map. Visitors will also find a listing through an interactive map.
