### X-Center 2.10

#### *Multilingual Tagged Content Pages*

X-Center is a content module for XOOPS 2.4 and later, it uses the latest techniques to hone easy to present content on a standard page. It has an Inheritable block and all the accessories for Tag and other features. It also supports X-Language and multilingual pages with the same ID.

With this powerful module you can easily make content with any xoops site with version 2.4 or later. This is the only and must have for content with XOOPS.

There is no need to upgrade from 2.07 to this version unless you are having language storage issues.

Fixes Include:

- XOOPS 3.0 Compatibility
- UNICODE Storage (Undone)

Some of the features include:

- Multilingual support of X-Language
- Support Tag 2.3+
- Inheritable block
- SEO Clean URL
- PDF Support
- RSS Feeds
- Optional Secure JSON Forms
- Optional Sitemap Module Plugin
- Optional Tag Module Plugin
