[Preko ramena](#) is a new magazine (still in beta, but fully functional) based on Xoops.

The magazine is in Serbian, and we're dealing there on various topics. From politics, travel, technology to a lifestyle articles.

The main module under the hood is the Publisher, with some template hacks for better SEO support.

The main comment system is external, and it's Disqus.

Preko ramena theme is based on bleekks i001 theme.

There is also TAG support, polls, etc.

Preko ramena mean 'Over the shoulder', so you should check it.
