We are pleased to announce the upgrade of the <http://www.hinduismtoday.com> web site. We were running on a very old 2.1 version that we installed in 2008. Frankly the theme and home page and navigation etc. were in need of a lot of help.

We want to thank Simon Roberts (aka "Wishcraft") for the upgrade. He re-did the theme and added custom functions in record time.

We were not sure in 2008 if we had made the right decision with XOOPS, but today, this platform is looking really strong and with the help of experts like **wishcraft**, we are moving forward!
