Welcome to the **January 2011** issue of **WOX (World of XOOPS) Newsletter** - our first in 2011!
(see here [previous versions](#))

Official Alpha 1 of the Xoops Engine Released!

This year we'll be celebrating 10th Anniversary of XOOPS, so it's a great way to start off with the [official Alpha 1 release of the Xoops Engine](#) - our "next generation" architecture for XOOPS!

Xoops Engine, as the new brand name for this new architecture, supports open and extensible engines with its multi-engine design. As for now there are three engines available:

- **Xoops**: the official engine with new architecture utilizing [Zend Framework](#) as the primary library and [Smarty](#) as the default view templating engine, as well as some third-party libraries like [jQuery](#). Demo will be hosted on <http://www.xoopsengine.org>;
- **Lite**: a lite version of the 'Xoops' Engine with no MySQL required, aimed for high performance scenarios;
- **Legacy**: for backward compatibility to support legacy XOOPS modules and templates.

Some selected features that were most requested by the community are now part of **Xoops Engine**:

- * Built-in cache mechanism for high performance
- * Clear MVC with AOP and event hook
- * Extensible URL rewrite for better SEO
- * App/module clone w/o code change

As always, as the first thing in each newsletter we wanted to express our gratitude to all of you [who have donated money](#) to [XOOPS Foundation](#)! We truly appreciate your trust and support! This month **Ian Underwood** remains the biggest supporter and donor - thank you Ian! **If anybody else would like to donate - please don't be shy!** 😊

Highlights of the last month:

- **XOOPS Innovation Award** - for people who create something very unique and

innovative for XOOPS. This time the award goes to to **Sushang Yang** ([Ezsky](#)) and his friends from China and **Christophe Boceno** ([kris_fr](#)) from France for their work on the [Slideshow Module](#). It's great to see developers teaming up and working together on modules!

- **XOOPSer of the Month Award:** is given to XOOPS members who show extraordinary dedication to XOOPS, and go the extra mile for XOOPS. This month, it goes to **Dirk Herrmann** ([dhsoft](#)) from Germany, for keeping the [XOOPS Germany](#) local support site operational, and for development of [DH-Info and CBB 4.0](#).

04. XOOPSers of the Month

Our "**XOOPSer of the Month**" Award is given to XOOPS members who show extraordinary dedication to XOOPS, and go the extra mile for XOOPS. Sometimes they do something spectacular, but most of the time they just do something everyday, but by doing it day-in and day-out, they make a BIG DIFFERENCE in life of XOOPS community. And we thank them for that!!!

This month, we would like to recognize **Dirk Herrmann** ([dhsoft](#)) from Germany, for keeping the [XOOPS Germany](#) local support site operational, and for development of [DH-Info and CBB 4.0](#)

You can read his previous interview [here](#)

05. XOOPS Innovation Award

Our **XOOPS Innovation Award** is given to people who create something very unique and very

innovative for XOOPS! We are clear that XOOPS can only succeed, when we push the limits of our creativity, imagination, and innovation to "infinity and beyond" 🏆. And therefore we would like to recognize people who create this "WOW!" effect, when we see what they've done. The XOOPS Innovation Award is not a monthly award, i.e. theoretically, there might be a month where we won't give one, but we certainly hope that this will never happen 😊

This month the Innovation Award goes to **Sushang Yang** ([Ezsky](#)) and his friends from China and **Christophe Boceno** ([kris_fr](#)) from France, for their work on the [Slideshow Module](#).

You can read their previous interviews here:
