New Site and new modules - YAXS

NEWS_PDF_AUTHOR: timgno

NEWS_PDF_DATE: 2011/2/4 18:52:03

New look and new site TXMod Xoops modules that use jQuery library.
The new version of the theme uses features, such as ui jquery toggle function, the function button, the function tabs, scrolling news and themes with scrollTo cyrcle and jquery. Added flags for multilanguage.

Modules:

Codelink v1.35: Demo - Download
Latest version of the module codelink for links, buttons and banners of the site with revisions and new administration interface, use the jQuery library to be accessed with the new toolbar.

Imprint v1.01:Demo - Download
Imprint that identifies the registered office of a website or business by entering all relevant information through this new form. They can use in both basic and multipage in using the database.
