I will be in traveling to Europe in June, and would love to meet our European XOOPS developers and users 😊

Frankfurt seems to be a good central location, so people from Belgium, Denmark, France, Germany, and other countries could easily drive or fly in.

While this could be a great opportunity to meet each other in person, our goal would be also to have couple good educational workshops and exchange experiences and know-how, especially as it relates to Xoops Engine.

Who would be interested in having a first **XOOPS Euro-Summit** sometime on the weekend of **June 18-19 in Frankfurt**?

If not Frankfurt, what other location would be preferred for those of you who would be interested in having our first **XOOPS Euro-Summit**?

Could representatives from local XOOPS support sites in Europe translate the info and ask on their Websites who from their users and developers would be interested?
