XOOPS is on the move! 🎉

[img]https://static.sourceforge.net/images/neotheme/sftheme/logo.png?1294995893[/img]

In February's SourceForge newsletter we were ranked as #22 Project on SourceForge, out of over 100,000 projects, and today we have a very nice article about XOOPS as part of their blog: "Community Showcase".

It is called "[XOOPS, There It Is! A CMS for the Masses](#)"

Very nice statement in the end:

Quote:

I love that this project has been around for so long, and continues to successfully reinvent itself. I feel confident that it will only continue to grow and prosper as the years go on.

Yes, with [Xoops Engine](#) we're in process of reinventing ourselves, and we have high hopes for the future

The Twitter is already full of links to this article, which should create a nice vibe for us in the Open Source world!

Viva XOOPS! 🎉
