We are pleased to announce the availability of XThemes. The module has been released and is ready for download from our website.

XThemes is a manager for XOOPS themes and a set of tools that allows the creation of themes more rich in functionality and better integrated with XOOPS and modules.

Due to the inherent characteristics of XOOPS and Smarty, XThemes allows new themes for greater interactivity and makes it possible to get more professional and modern appearance.

Other XOOPS Modules

Also other modules have been updated from Red Mexico:

Common Utilities
MyWords
QuickPages
Professional Works

And a very simple new module has been added to the family: ContactMe!

Still plans to release new modules and enhancements to existing ones.
