http://www.shower.geek.nz

Did you know that one of the law of physics is that "Every Action has an oppersite and equal reaction!" what this means is with the internet it physically reproduces sometime in a minor way and sometimes in a major way with the world around us. This is appliable with chaos theorm.

This is caused by a complex array of humanology physics such as character recognition and domain abstractions. This is the geeks shower, if you want to target someone in the shower then just upload their image or place a comment in the forum about the individual, it will reproduce itself in the water courses around them.
