Do you know about HTML5 ? Do you like it? If yes then we have good news for you .

We have a new theme with HTML5 for XOOPS. This theme is developed based on Suico theme structure and [SmashingMagazine HTML5 template](#)

This design is done by: [Enrique Ramirez](#) (According to old design of SmashingMagazine website)

You can read more information about this design in this article : [Coding A HTML 5 Layout From Scratch](#)

and see live demo here: [demo](#)

To download this theme, please use this link: [Download](#)

I've added new template for news module (news_item.html) with HTML5 and in fmContent module I've added full HTML5 template ([download fmContent](#))

Please tell us your idea about HTML5. Do you plan migration to this version?
