FmContent version 1.03 RC3 - Modules

NEWS_PDF_AUTHOR: voltan

NEWS_PDF_DATE: 2011/4/20 11:05:54

We have ready fmContent module version 1.03 RC3 for test and debug .

fmContent is a new version of content module by ForMuss, and we have added some other options in this version . It's a simple module for building static and dynamic pages in your website .

Please help us to test this version. We would like release final version in next week, after successful testing.

You can download this version from here

changelog after version 1.02 RC2:

Quote:
