

X-XML, X-CURL, X-JSON & X-SERIAL - #Stable #Release - Modules

NEWS\_PDF\_AUTHOR: wishcraft

NEWS\_PDF\_DATE: 2011/4/23 6:35:20

Here at chronolabs we have updated the modules for API use, that is an application programmable interface for XOOPS. These allow you to connect your XOOPS Portal to something like an iPhone or Android App and share username as well as information on them.

It would also allow you to do remote backup and query over HTTP Protocol in XML, Serialisation, JSON. Of course there is many reason why you would want to run it all, and you can - the function plugins on the API allow cross compatibility even with X-SOAP they are all identical for each API.

### **X-XML 1.54**

Comments & Testing:
