

Xoops Engine Experiences and Tutorials - XOOPS

NEWS_PDF_AUTHOR: phppp

NEWS_PDF_DATE: 2011/5/3 1:50:00

It is very exciting to see two videos for Xoops Engine presented by [@txmodxoops](#) right after Xoops Engine Alpha 2 release:

- * [Xoops Engine Alpha 2 installation on wamp server](#)
- * [Xoops Engine Alpha 2 after installation](#)

Although txmodxoops had not so successful experiences, participating and sharing is the first step to improve our new system.

Soon after the two videos, mamba shared his two videos:

- * [Installing Xoops Engine Alpha 2 on WAMP server](#)
- * [Installing XOOPS legacy modules in Xoops Engine](#)

A demo site has been installed at <http://demo.xoopsengine.org> on nix system, please check :

- * [Xoops Engine Alpha 2 deployment and permission settings](#)
- * [Xoops Engine Alpha 2 installation on ubuntu/nginx stack](#)

Please share your Xoops Engine experiences on twitter with [@XoopsProject](#) casually but quickly.

And report your issues to [Github issue tracker](#)
