As of the New Year ModsCentral is now a Xoops Only Site!!

Due to a bit of confusion (and a few other things) with the two *Xoops CMS's being together at **ModsCentral**, I have decided to make the split and have total support for **Xoops only at ModsCentral**.

You will still get the latest and greatest Modules, Hacks, Blocks and information at [ModsCentral](#), in fact even more so now, your always welcome to contribute and download at ModsCentral, I hope to see you dedicated Xoopers (& Newbie's) there more often now...

Thanks once again for your support

See you at [ModsCentral](#)
