Hello everybody!

Today I'm introducing the new updated version of my #1st paid premium xoops theme, Faster. This version is named Faster 2.

The theme has been made for XOOPS 2.4/2.5 but it should run on older 2.x releases too. It's a 3 column theme with a fixed width of 960px (which can be easily tweaked). Included is a special site closed template.

The new version includes 3 new color styles (pink, grey and blue) and included are the PSD files for these colors. Together with this release I've lowered the price of the theme to \$2.99. You can also, thanks to TrialPay, get the theme for free.

This theme also includes free support and updates (I might add new color styles) and I guarantee that when Xoops Engine is released, this theme will get a version to run on it.

The theme has been tested in all modern browsers (that means everything above IE7). It's now for sale for only \$2.99 (which is \$2.69 cheaper than the earlier version!). You'll also get a discount for my upcoming theme Laguna (I haven't set a price for it yet, but most likely it's going to be 35-50% off).

You can buy the theme from both TrialPay or ShareIt. If you can't buy the theme in one of these ways, feel free to email me on vampire.trix@gmail.com and we'll sort it out ;)

If you have any questions, don't hesitate to ask ;)

More information and purchasing options are available [here](#) and you can check a demo installation on [my XOOPS demo site](#).
