

Content module update v1.4 - Modules

NEWS\_PDF\_AUTHOR: kerkyra

NEWS\_PDF\_DATE: 2011/8/23 18:40:00

There is no new functionality with this new version.

This is just an implementation of the new Admin Menu Class to maintain consistency with xoops.

I also tried to add as many details in the changelog of the module, to maintain its history, before my modifications and refactoring.

Since there are no other complaints or bug reports regarding this module, I suppose it is as bug free as possible.

Please if you find any bugs let me know.

**Download:** You can find the new version [here](#)

Or in the module repository [here](#).

Thanks
