

TDMCreate 1.38 Alpha 1 - XOOPS

NEWS\_PDF\_AUTHOR: timgno

NEWS\_PDF\_DATE: 2011/10/19 22:19:26

### **Only for testing**

TDMCreate is a module for creating XOOPS modules.

### **What's new?**

- Added two files into administration. for file management and creation of language files.
- Added two class files. management fields for languages ??and file management.
- Improved page file on the user side.
- Added language variables in admin.php and modinfo.php (Italian only)
