We have recently made with Pham Design for graphic designed several times titles of software for you to use, for example in one of their community releases was Maquee, Instead of Marquee in the SVN as a second title was from Lien Cards and the Marquee in there title of software.

Here is an example of what the background colour fitted will do for the fades instead of flashing the screen background.

Check out [Lien Cards](#) from Australia! I also found from the xortify title there was no spam bot signup constantly.
