

MyGalleries 3.0.37 available for download! - Modules

NEWS_PDF_AUTHOR: bitcero

NEWS_PDF_DATE: 2011/12/9 19:45:07

To continue with the releases of modules, now it's up to announce the availability of **MyGalleries 2.0.37**.

MyGalleries is a module that has been imported from a XOOPS EXM System. It has many features and improvements over existing modules. Among the most prominent features include:

- Integrated with [Common Utilities](#)
- Manager albums
- Support for tags
- User Manager
- Allocation of user fees
- Flash loader with support for multiple
- Support for e-cards
- Multiple navigation options
- Integration with other modules
- And much more ...

You can download from [MyGalleries microsite](#) or by [direct download](#).
