How to Listen to Torque radio:

Torque Radio broadcasts live shows held each Tuesday, Wednesday & Thursday night at our Qld studio from 6:30pm AEST.

To listen in, firstly, you will need to be registered to listen to Torque Radio music and/or interviews. Registration is completely free and takes less than 5 minutes. You will notice a 'Listen to Torque Radio' block on the top left hand side of the website. Simply click the 'listen now' link and your audio will begin to play. If you would like to use your own media player, simply click an alternative link located below the listen link. If you would like to listen on your IPHONE, simply click on the iphone listen link. This will enable you to listen live on your IPHONE. Android users will be able to listen directly from the Torque Radio website. Happy listening!

A Bit about Torque Radio Currently:

Newly rebranded and launched Torque Radio has partnered with Harrington Doyle Racing to bring local Karting content to more online radio listeners around the world in 2012.

TorqueRadio.com is the brainchild of Steve Hellyer, a long time motorsport enthusiast and trade qualified electronics engineer. Steve set out with a long term ambition to establish a radio station devoted to motorsport enthusiasts.

The studio quality broadcasts from the station's Brisbane premises, as well as remote trackside locations have established this well known media product and brand amongst the drag racing and drifting communities. Torque Radio brings together various internet technologies to enhance their website presence, product and brand to keep audiences growing at a rate of up to 150% per month.

In 2012 Torque Radio has partnered with Harrington Doyle Racing in a deliberate attempt to grow their content in the area of local Karting and junior motorcycling. In exchange for regular online Team interviews, seasonal progress segments and a possible experimental trackside broadcast at the Ipswich CIK Stars of Karting round, HDR drivers will wear and promote the Torque Radio brand on their white race helmets throughout the 2012 season.

What was use to revamp the site:

- XOOPS 2.5.1 to XOOPS 2.5.4
- xFresh Theme from Recent News
- Xortify 3.04
- Xpayment 1.42
- Debaser
- News 1.66
- Twitterbomb 1.27
- VOD 1.17
- Prochatrooms 1.13
