### SAM1.03

Community Release by [Torque Radio](#)

SAM 1.03 is the web component of the SAM Broading Automation software from [www.spacialaudio.com](http://www.spacialaudio.com) - SAM Broadcaster comes with a web component this is simply the XOOPS Version for SAM Broadcaster.

This has all the features and comes with a complete modeler for the class system so you can expand on your SAM Broadcaster easily if you know how to program XOOPS. You can have a seperate database for Sam on your webhost and you will be able to point this module too it in the preferences.

Watch this video to better understand SAM 1.03 for XOOPS
