

Free Theme: Gentle - Themes

Hello everybody!

A long time since I posted here, so I decided to release a new theme for XOOPS. Like usual, this is a nearly imageless theme using lots and lots of CSS3.

Gentle is a nice XOOPS theme where I tried to do things a little different. I wanted to make it feel a bit less XOOPS-like and use accents I rarely used before.

This introduced pink to this theme, which really makes it look different from what I've done before and really gives the theme a unique feel.

Best of all, I'm releasing this theme for free :)

You can watch it live on my demo installation on <http://www.vampiretrix.com/themedemo/?theme=gentle>.

You can download it for free on <http://vampiretrix.com/webshop/shop/gentle/> (don't worry the webshop part - it's completely free!)

I hope you enjoy this theme - feedback, questions or suggestions are welcome on support@vampiretrix.com!
