The [Ministry of Defense of Libya](#) got a new website, and it's done in XOOPS! 🎉

This is thanks to the hard work of Mowaffaq from www.arabxoops.com, who is tirelessly promoting XOOPS in the Arabic-speaking nations.

XOOPS was compared to several other CMS solutions, and after the tests the Ministry of Defense has made the decision to go with XOOPS.

This new Website is using Publisher, extCal, XoopsPoll, MyTube and several other modules.

We are very proud of the achievement and would like to congratulate Mowaffaq and his team for this success.

Viva XOOPS! 🎉
