

New Traveller website powered by Xoops - YAXS

NEWS\_PDF\_AUTHOR: deka87

NEWS\_PDF\_DATE: 2012/5/10 10:01:49

After several successful Xoops projects I decided to stick with Xoops for yet another one and created a brand new website for travellers (in Russian).

Proudly powered by [Xoops 2.5.5 rus](#)

Theme used:

This is a custom theme I called **Boost** created using the [Twitter Bootstrap](#) CSS library.

Modules used:

- [News 1.66](#)
- [Random quote 1.0](#)
- [Contact 1.7.1](#)

The News module has been modified to support SEO friendly URLs (e.g. news/item+4/schengen+visa).

Hacks used:

- [blocks anywhere 1.1 by Trabis](#)

Also CSS sprays are used to reduce server load.

Please visit us at [getvisas\[dot\]ru](http://getvisas[dot]ru). Your comments would be much appreciated.
