XoopsTube is a module to add and categorize videos from sites like YouTube, DailyMotion, LiveLeak, etc. on your website.

Originally developed by McDonald and released as version 1.03, it has been now converted to XOOPS 2.5.x Admin GUI and updated with some source code from MyTube 1.05 and other modules like Mastop Publish, and tested on [XOOPS 2.5.5](#) and PHP 5.3.10

Download: [XOOPS SVN](#)

Requirements:

- XOOPS 2.5.x
- [ModuleAdmin](#)
- PHP 5.2+
