We are pleased to announce that Christelle Gaulupeau (Cesag) will be leading the **XOOPS Testing/Quality team**.

For those of you who are visiting our Forums here, you know her very well. She is tirelessly testing modules, provides us with fixes, and also does translations into French.

In May she won the **"XOOPSer of the Month" Award** for her contributions.

Recently she also became the Admin for XOOPS France.

We are very happy to have her as part of our XOOPS family.

And we would like to encourage everybody to join the **XOOPS Testing/Quality team** and help her with it. This will help us to make better modules and better XOOPS.

For discussion related to **Quality Assurance Team & Process**, we have a special forum for it - please post any topics related to it there.
