I have created a irc channel for xoops at [irc.au.freenode.net](irc://irc.au.freenode.net) called #xoopsupport.

If your lazy u can just click below.

<irc://irc.au.freenode.net/xoopssupport>

I would love it if it was to become the official IRC channel for xoops.

I have been working on a IRC module for xoops 2.0 and it is nearly complete.

Hope to see you there.
