After being voted in August as "**Project of the Month**" on SourceForge, we are happy and proud to announce that XOOPS has been voted the **1st Runner-up** of the

People's Choice Award for **Best Free CMS**

at 2012 Critic's Choice CMS Awards!

We fought a very tough battle with Tiki Wiki for the first place, and we would like to thank each and every person who voted for us!

This Award and this recognition by the users means a lot to us!

Viva XOOPS! 😁
