Today I am releasing another theme for XOOPS developed using Theme Factory.

Theme Factory is a framework for developing **responsive** themes for XOOPS, and in this version it is fully HTML5-based, and integrated with Bootstrap.

See online:[http://demo.xoopsfire.com/index.php?xoops\\_theme\\_select=themefactory-html5](http://demo.xoopsfire.com/index.php?xoops_theme_select=themefactory-html5)

Screens:<http://xoopsfire.com/modules/extgallery/public-album.php?id=41>

Download:<http://xoopsfire.com/modules/TDMDownloads/singlefile.php?cid=22&lid=83>

Hope you enjoy!
