

Extension Rating 0.1 Beta 1 for XOOPS 2.6.0 - Modules

NEWS_PDF_AUTHOR: kraven30

NEWS_PDF_DATE: 2013/3/24 22:54:27

Rating is an extension that allows you to easily add a voting system to the inside of your modules, you can add as many as you want. For example, to rate a hotel, restaurant service, quality of food, price, etc..

It can be used for any module, it works the same way as the module Tag. It uses the jquery plugin 'jRating'.
