I converted my i-trends theme to XOOPs !

The site is up and running. I already finished the first block hack for XOOPs:  
i-Block[Last x Comments 1.0].

The XOOPs site can be reached using the following url:

<http://www.g-at-g-webdesign.de/xoops/modules/news/>

As soon as RC2 is out I will move the site to <http://www.i-trends.de> again !

Look out for more i-Block releases !
