extCal 2.37 Final is released - Modules

NEWS_PDF_AUTHOR: Mamba

NEWS_PDF_DATE: 2013/7/10 20:14:22

extCal is an event/calendar module developed exclusively for XOOPS.

The version extCal 2.37 Final is now released for XOOPS 2.5.6. It's been tested on PHP 5.4.17.

Changelog:

- small changes for PHP 5.4
- fixed: removed today's events from "upcoming events" block

**Download:** XOOPS File Repository
