

Shoutbox 5.01 Final released for XOOPS 2.5.6 - Modules

NEWS_PDF_AUTHOR: Mamba

NEWS_PDF_DATE: 2013/8/13 23:55:07

Shoutbox module is a XOOPS module that provides an interactive block and pop-up window for visitors to post and view messages, similar to a chat system.

Originally developed by Tank, and upgraded to Blue Move by Trabis, it has now been updated to XOOPS 2.5.6 Admin GUI, and tested on XOOPS 2.5.6 and PHP 5.5.1

For users of versions 4.x and lower: Classes were added and a lot of the code was rewritten. Database has changed so please do not upload this package over the old Shoutbox module

- Uninstall shoutbox
- Delete all files
- Upload new files
- Install Shoutbox

Download: [XOOPS File Repository](#)

Requirements: XOOPS 2.5.6
