## WF-Downloads module 3.23 beta ready for testing - Modules

Posted by: luciorota

Posted on: : 2013/9/15 13:30:00

I've just committed the last modifications to WF-Downloads module.

it's still in beta state but, IMO, ready for testing.

**It is "STILL BETA"... do not use this module on active sites**

The latest version on is in the [XOOPS SVN](#).

Thanks for helping me in debugging phase. 😊

Lucio

Changelog:

- module standardization: header.php, admin/admin\_header.php, xoops\_version.php
- module standardization: standardize directories/files names/structures
- module standardization: standardize code headers
- module standardization: use WfdownloadWfdownload object instead of \$xoopsModule, \$xoopsModuleConfig and xoops\_getmodulehandler (luciorota)
