Yep, it's Yet Another Xoops Site!

GLOAMING.us is dedicated to the intelligent, rational discussion of contemporary issues. And, of course, we have all of the usual: news, weather, search engines, polls, links, an on-line legal dictionary, and so on.

We're very proud of this site, not only because of the way Xoops has made it run so fantastically, but because of the fantastic input of our users. Stop by and say hello!
