We are happy to share with you that the founder of XOOPS, **Mr. Kazu Ono (aka Onokazu)** has donated the XOOPS domain (<http://www.xoops.org>) to XOOPS Foundation! 😊

The [XOOPS Council](#) appreciates very much his trust in the current team, and we can only reiterate our full committment and dedication to keep the Open Source ideals and spirit alive in XOOPS!

We also would like to thank Mr. Kazu Ono for all his leadership, dedication, and vision for XOOPS over all these years! He is a true giant of programming and we feel honored to be able to carry on the legacy of the original founders of XOOPS!
