To-Do Notebook module for XOOPS 2.6.0 - Modules

NEWS_PDF_AUTHOR: Mamba

NEWS_PDF_DATE: 2015/11/27 18:00:00

Cointin Maxime (Kraven30) has developed couple of years ago for **XOOPS 2.6.0** a small module for recording your To-Do List called **"Notebook"**

It is a very simple module to record your To-Do items and track their completion.

Since XOOPS 2.6.0 went through several changes, I have updated this module, similar to the 6 modules developed by Dugris

Download: from our repository on GitHub

Please fork it, test it, improve it, and contribute back to XOOPS

I'll write a tutorial for the usage of this extension hopefully next month, but it's really simple to use, so I am not even sure if a tutorial is needed
